

The Omaha District, U.S. Army Corps of Engineers, can provide a wide range of talent, skills, and service, including engineering, operations, construction, planning, contracting, and real estate. Our concept of customer service is "We Work for YOU." At your request and direction and with your needs as our highest priority, we will respond with appropriate resources to meet those needs. We will provide you, our customer, with consistent quality and responsive cost-effective engineering and technical support. If services outside the Omaha District are needed, we are partners with other Corps offices and can tie into a larger network of additional capabilities.

Mission

The mission of the Omaha District is to provide quality service as the Federal Engineer. The district spans all or part of 10 states, covering 700,000 square miles. The district's three major missions include civil works, military construction and environmental restoration.

How It Works

For assistance or more information about our services, please contact one of the Project Management Offices listed below:

<u>Projects/Programs</u>	<u>Name</u>	<u>Telephone</u>	<u>Fax</u>
Military	Vincent Turner	402-995-2781	402-995-2097
Civil Works	Robert Matya	402-995-2718	402-995-2454
Environmental	Randal Petersen	402-995-2736	402-995-2814
All Other	Erik Blechinger	402-995-2003	402-995-2013

In addition to these offices, we also have more than two dozen field offices located in nine states that can oversee construction projects involving all the missions indicated above. At all Corps of Engineers offices, our teams of engineering professionals are ready to help you.
